LYNCHIN IN ILLINOIS

Two Men Taken From Jail and Hung a Bridge.

GUILTY OF CRIMINAL ASSAULT.

The Mob Advised to Leave the Law Take Its Course, but They Did Not Trust Governor Altgeld—They Feared a Pardon if the Criminals Were Convicted—The Mob Mostly Farmers.

BLOOMINGTON, Ill., May 25.—The Pantagraph's Danille, Ill., special says: At midnight a mob of farmers attacked the Vermillion county jail to secure John Hall, Jr. and William Royce, who raped Miss Lani Barnett Thursday night. Sheriff Thompson denied them admission. The mob procured a telephone pole and used it as a battering ram.

After repeated efforts to break down the outer jail door with the telephone pole which produced little or no effect, the crowd momentarily desisted in its efforts. Sheriff Thompson, his wife and Deputy Sheriff Sloan beseeched them to disperse.

Mr. Barnett, the father of the injured girl, said to Mrs. Thompson: "Madam, you never had a daughter outraged and her blood demands vengeance."

His reply was wily applause. By this time a railroad was secured and with three blows to the outer door was battered in, the mobbers thronged in and commenced work on the inner door.

The police at 2 o'clock brought Judge Bookwalter, the circuit judge, to the jail. He made an earnest, eloquent plea to let the law take its course and not bring disgrace on the county by the first lynching in its history. He assured the men that any Royce would receive a severe punishment if found guilty; that the jury would do its duty.

At first his words produced a telling effect, but the leaders who are among the most prominent in the county, finally replied: "We know the jury will convict and give them a severe sentence, but Governor Altgeld will pardon them out. He recently pardoned three rapists you set up from Champaign county for 20 years, and he will pardon these men. If any other man than Altgeld was governor we would not lynch these men, but we are determined he will never have a chance to turn them loose."

With these words they again commenced work, and at 3:30 a. m. the mob finally got both the men and took them out to a bridge in the east end of town and hung them.

The lynchers were nearly all farmers from the southern part of the county where Miss Barnett lives. The crowd gathered in a livery barn within a block of the jail and marched in a body to the jail.

The criminal assault was made at 7:30 o'clock Thursday evening on Miss Barnett by Hall and Royce, well known young men of unenviable reputation. Miss Barnett, in company with Lillian Draper, was walking in the Vermillion river bridge when accosted.

The girls started to run. One man knocked Miss Barnett down. Miss Draper made her escape up Main street and her shrieks collected a crowd, who started in pursuit of Hall and Royce, who dragged Miss Barnett with them. They passed John Davis, an old man, who attempted to interfere. He was knocked down by Hall.

The men took the girl to the river bottoms, where they accomplished their purpose. Miss Barnett was found unconscious several hours later. Hall and Royce were arrested, waived preliminary examination and were bound over to the grand jury.

EFFECTS OF THE EARTHQUAKE.

Fifty Persons Were Killed and Three Times That Many Injured.

CONSTANTINOPLE, May 25.—Word has reached this city of a disaster from an earthquake in the town of Paramythia, in the province of Epirus, which is part of Albania.

Paramythia is a small town of about 3,000 inhabitants. The town is divided into the upper and lower town and has an old castle garrisoned by Turks and the remains of ancient walls. It is a Greek bishop's see. Nearly all the houses in the town have been destroyed and 50 persons were killed and 150 injured by the earthquake.

Vesuvius Very Active.

LONDON, May 25.—The Daily News has a dispatch from Naples, which says that the activity of Vesuvius which coincided in 1894 with the earthquakes in Japan, Turkey and Calabria, is again noticeable. Thick columns of smoke, fire and lava are issuing from the mouth of the crater making a splendid spectacle by night. A new cone is forming on the summit which is already 70 feet high. The seismic instruments are very active.

LEAVENWORTH, Kan., May 25.—Sheriff Rothenberger has received a letter from Governor Morrill with explicit instructions to prevent the Dixon-Gardner prize fight which is to be pulled off in the southern part of Leavenworth county next Sunday. The sheriff says he will have a large force of deputies on the ground and surely prevent it taking place in this county.

Only Lasted Seven Rounds.

WAUSAU, Wis., May 25.—Frank Burnett, champion welterweight of the northwest, and Patey Darrington of Manitowoc fought at Warren Point yesterday. The match was to be 10 rounds, but Burnett made his man quit in seven. In the last round Darrington was knocked down three times.

PEACE REIGNS IN COLOMBIA.

Particulars of the Recent Rebellion as Furnished by General Rengifo.

WASHINGTON, May 25.—General Julio Rengifo, commander of the southern wing of the Colombian army in the revolution just closed, returned here yesterday to resume his position as charge d'affaires of Colombia. He brings interesting particulars of the bloody struggle, concerning which the reports have been very meager thus far. The contending armies numbered about 40,000 men, the killed and wounded were very heavy.

General Rengifo says the rebellion had its inception among a set of dissatisfied radicals, at the head of whom was General Santosa Costa. He was captured at the outset but his colleagues, Generals Pedro Pinzon, Roderiguez, Ruis, Gutierrez and Verga Santos took the field with an army of 14,000 men. They secured arms through Venezuela although not with the government's assistance. They had Mannlicher and Remington rifles, heavy ordinance and machine guns. The government army numbered 25,000 men, equally well equipped.

The decisive battle occurred at Siso, in the north. The rebels had 2,500 and the government 3,000 men. The killed exceeded 1,000, the rebel dead being over 800.

General Rengifo says peace is fully restored and that the country is again tranquil.

Referring to the reports that he would present to the state department Colombia's claim to the Mosquito country in Nicaragua, General Rengifo said he had been so busy with military operations that he had not read the instructions of the government and did not know that the claim would be made. There is little that could be brought to the attention of the United States beyond a protest against Nicaragua's assertion of rights.

MISUNDERSTOOD MEASURE.

Mexico Does Not Discriminate Against American Capital.

WASHINGTON, May 25.—Senor Romero, the Mexican minister, said concerning the intention of Mexico to decrease an export duty discriminating against the American capital invested in Mexican mining enterprises that he was not aware that such a bill had been approved by the Mexican congress, but that as it was presented by the executive, he believed that it is very likely it will be approved.

Senor Romero further said that the real object of the pending bill was to distribute on the whole mining industry of Mexico the very high duty now levied upon the mining of silver. The present mining duty is 4.44 per centum. Senor Romero further said that the real object of the new bill is to distribute equally between all the silver producers of Mexico the present taxes, which now lie only upon some classes of miners, and that the imputation that it is a discriminating measure against American capital invested in mining in Mexico, is utterly without foundation.

Amalgamated Association.

CLEVELAND, May 25.—When the Amalgamated association adjourned at noon Secretary Kilgallon stated that the entire morning session had been devoted to the consideration of the boiler scale. Very little progress had been made on the question, he said, and it would probably be taken up again. In the afternoon the delegates marched to the foot of Superior street and embarked on the steamer State of Ohio, and enjoyed a lake excursion as the guests of the local Amalgamated lodges. One of the delegates stated that it would be a week or possibly 10 days before the various scales were all passed upon.

Justice Fields Will Not Retire.

WASHINGTON, May 25.—The Evening Star says: Justice Fields of the supreme court is determined to remain on the bench as long as he has sufficient strength to perform his duties. Speaking to friends a few evenings ago, he said: "I will not leave the bench if the Lord gives me life and strength so long as the present administration is in power. The appointment of a successor to Justice Jackson can not change the standing of the court upon the income questions, so that there is no danger of the law being declared constitutional through such means."

Guilty Again.

ATCHISON, Kan., May 25.—The jury in the case of James Nutt, charged with shooting and attempting to kill Mrs. Jesse Payton, late last night returned a verdict of guilty as charged. Nutt is noted for his connection with the Duke tragedy in Pennsylvania. He is already under sentence for attempting to kill James Coleman and he will probably get an aggregate of 20 years in the penitentiary.

Raining in North Dakota.

GRAND FORKS, N. D., May 25.—Reports from all over the eastern section of the state show that rain has been falling steadily most of the time for 20 hours and grain already sown has enough moisture for the next six weeks. The outlook has generally improved for wheat which was damaged by frosts and farmers are much more hopeful. The rain is worth a million to the state.

Civil Service Extended.

WASHINGTON, May 25.—It is understood that the president has approved a recommendation made by the civil service commission for the extension of the classified service to sundry positions in the agricultural department.

Treasury Statement.

WASHINGTON, May 25.—Yesterday's statement of the condition of the treasury shows: Available cash balance, \$183,455,305; gold reserve, \$98,248,559.

A STRIKE PREDICTED.

Interview With Mr. Ratchford of the Ohio Mine Workers.

IT WILL BE GENERAL IN EFFECT.

The Work of Organization Is Now Going on and Nearly Everything Is in Readiness For the Final Order—President Penna Does Not Think It Will Occur. Other Mining News.

WHEELING, May 25.—Mike Ratchford, president of the Ohio Mine workers, in an interview here predicts that the Columbus convention, which meets on May 29, will order a cessation of work throughout Pennsylvania, Ohio, West Virginia, Illinois and Indiana.

Ratchford and other leaders of the miners have been at work among the men in Ohio and West Virginia for two weeks, and they say that all is in readiness for a big strike equal to that of last year.

DOES NOT BELIEVE IT.

President Penna Gives His Views on the Present Situation.

COLUMBUS, O., May 25.—The prediction of President Ratchford of the Ohio miners, that a general strike would be declared at the convention here next week, is thought by persons here posted on the mining situation, to be rather untimely. National President Penna, of the United Mine Workers, when seen, said he did not believe any one could predict the action of the convention.

"With all the miners in Illinois and Indiana, and nearly all of those in West Virginia working, and the strike in the Pittsburgh district lost, no one can tell what may be done," said Mr. Penna.

In Illinois a settlement has been made conditional upon affairs in Ohio. In the Indiana bituminous fields a settlement has been made under similar circumstances and in the block coal field of that state an agreement has been made for one year.

Although the miners officials have strongly advised against a general strike, there is a sentiment in Ohio in favor of one and as the Ohio miners will practically control the interstate convention to be held here next week, the outlook is anything but assuring. Nearly all the miners in Ohio are idle.

AFFAIRS AT POCAHONTAS.

New Men Refuse to Go to Work and the Strike Continues.

POCAHONTAS, Va., May 25.—The 28 men brought to Crozers, W. Va., from Roanoke, Va., to work in the mines, upon learning of the strike, refused to work. Lawless was sent for and had a conference with Governor MacCorkle's private secretary, when it was agreed to explain the situation to the new men to be peaceful, but to hold out for an advance and the enforcement of the mining laws of the state.

There was to have been a submission of terms for settlement by Webb and the operators last night in West Virginia, but when Lawless announced that he was for an advance, it was declared off. Lawless says the strike has been won. More Virginia soldiers came into Pocahontas yesterday.

Ended in the Pittsburgh District.

PITTSBURGH, May 25.—The miners' strike of the Pittsburgh district is practically ended and the strikers will go back to work at the operators' terms, 60 cents per ton.

CENTRAL AMERICAN UNION.

Four of the Republics Are Already Interested in the Matter.

MANAGUA, May 25.—The special ministers of Honduras, San Salvador and Guatemala yesterday were given a banquet in the city of Leon, which they reached en route to their homes. "Much interest and approval is manifested for the plan to form a Central American union, which these ministers have discussed during their stay in the country."

Costa Rica was not represented by a special minister at this conference. The daily newspapers of Costa Rica and Nicaragua which are subsidized by the government are strongly accusing each country of having warlike intentions against the other.

The Nicaraguan canal commission appointed by President Cleveland are making progress with their work. They have completed the examination of the harbor of San Juan del Norte. They next went to Brito and thence eastward along the canal route. The condition of the water supply along the route is found to be excellent. An examination is now being made of the locality about the Ochoa dam.

CARLISLE ANSWERED.

W. J. Bryan, the Famous Orator and Silverite Speaks at Memphis.

MEMPHIS, May 25.—Ex-Congressman W. J. Bryan of Nebraska, addressed the people last night at the Grand opera house, under the auspices of the Bimetallic league, and answered the "sound money" argument advanced by Secretary Carlisle at the big convention Thursday.

Mr. Bryan drew a comparison between the secretary's speech and his effort of 1878. He was followed by Congressman John Allen of Mississippi and E. W. Carmack of Memphis, editor of The Commercial-Appeal. There was quite a demonstration in honor of the visitors.

WASHINGTON, May 25.—The regular cabinet meeting was held at the White House yesterday. The absentees were Secretaries Carlisle, Smith and Lamont.

MUNICIPAL BONDS.

A Court Decision That Will Affect Millions of Dollars.

CLEVELAND, May 25.—Judge Ricks sitting in the United States court yesterday handed down a decision which establishes an important precedent and indirectly affects millions of dollars worth of municipal bonds issued on the authority of special legislation and not authorized by a popular vote of the people living in the town or city by which the bonds are issued.

The case was that of the German-American Investment company of New York, against the city of Youngstown, O. The investment company was the highest bidder for \$186,000 worth of water bonds authorized by the city administration, and afterward approved by a special act of the legislature. Later, the investment company refused to accept the bonds on the ground that they were not authorized by a two-thirds vote of the citizens of Youngstown, as required by the statutes of Ohio. The case was then taken into court by the investment company suing the city of Youngstown to recover \$3,500 deposited as a bond.

The court decides in favor of the investment company, and holds that the city had not met with the requirements of the constitution, and that the general assembly in passing an act giving Youngstown authority to issue bonds, had violated that part of the constitution, which says the general assembly shall pass no special act conferring corporate powers. Bonds issued without a two-thirds vote of the people are practically declared to be worthless.

It is said that millions of dollars worth of bonds have been issued by various towns and cities throughout the state which will be affected by this decision. Another phase of the case is the possibility of such bonds being redeemed. Such redemption could be restrained by any tax payer on the ground that the act by which they were issued was unconstitutional.

LAID TO REST WITH HONORS.

Funeral Services Over the Remains of the Late Congressman Cogswell.

SALEM, Mass., May 25.—The funeral of the late Congressman Cogswell yesterday afternoon was the most imposing scene in this city for a number of years. There was a general suspension of business and many buildings were draped in mourning. When the body of General Cogswell arrived, escorted by the congressional committee and that sent from the state legislature, it was met at the depot by a guard of honor from the national guard and the local G. A. R. post, which escorted it to the city hall, where it lay in state for three hours and a half, being viewed by a great number of people.

The funeral services were held at the tabernacle church, which was crowded to the doors with a distinguished company. The services were conducted by Rev. J. P. Franks of Grace Episcopal church, assisted by Rev. James L. Loring, acting pastor of the tabernacle. Interment was at Harmony Grove, where the Grand Army ritual was performed. During the passage of the funeral cortege to the grave all the bells of the city were tolled.

HONORS DISTRIBUTED.

People Benefitted by Queen Victoria on Her Birthday.

LONDON, May 26.—Among the honors distributed yesterday on the occasion of the queen's birthday are the following: Sir Henry Brougham Loch, former governor of Cape Colony, was made a privy councillor; Henry Irving, the actor; Lewis Morris, the poet, and Howard Russell, the war correspondent whose service dates back to the Crimean war, were knighted. The Earl of Aberdeen, governor general of Canada, has had his title raised to the first class.

The following are given second class titles: Hon. John Shultz, ex-governor of Manitoba; Henry Gustav Jolly, premier of Quebec and Collector of Customs Milne at Victoria, B. C. The title conferred upon Michael George Milne, is for his services in connection with the Bering sea negotiations.

GORDON A FREE MAN.

Not Indicted For Killing His Wife and Archie Brown.

LOUISVILLE, May 25.—The grand jury yesterday before adjourning dismissed both cases against Fulton Gordon for the killing of his wife and Archie Brown, son of Governor Brown, in this city, several weeks ago. The day had been set apart specially to inquire into the case, and nearly all of the witnesses examined at the preliminary trial were present, but only a few of them were examined.

The prosecution will take no further action in the matter and Gordon is now a free man. Members of the grand jury declined to state whether the action in dismissing the proposed indictment was unanimous or not. The action of the grand jury was favorably received by nearly everybody.

Minister Indicted For Wife Murder.

INDIANAPOLIS, May 25.—The Rev. William Henshaw was yesterday indicted by the Hendricks county grand jury for the murder of his wife about three months ago. Henshaw claimed at the time that robbers had killed his wife and wounded him.

Price of Bread Advanced.

KANSAS CITY, May 25.—All of the bakers in Kansas City, Kan., have notified the retail dealers that beginning today the price of bread would be advanced. It has been retailed to consumers at three loaves for 10 cents and as cheap as two for 5 cents. It can not now be sold for less than 5 cents per loaf by the retail dealers.

PRICES ARE GOING UP.

The Temper Is to Buy Regardless of Requirements.

FALSE REPORTS ABOUT WHEAT.

The Crop Has Not Been Injured to the Extent Generally Reported—Corn, Oats, Pork and Lard All Advanced in Price. Iron Industry Improved—Mills and Factories Again Becoming Active.

NEW YORK, May 25.—R. G. Dun & Company's weekly review of trade says: If wheat has been so greatly injured by the snows and frosts in May that the sudden rise of 12 cents in two weeks is justified, the calamity will effect all business prospects. The markets do not believe it for stocks do not collapse, iron, leather and hides still rise and no holders of wheat would sell at 80 cents, a lower price than had been known at this season for 30 years prior to 1893, if current reports were credited.

Some inquiry has undoubtedly been sustained but our own dispatches do not show that it is really serious. The temper is to buy, regardless of visible requirements, in the faith that prices are sure to rise. Western receipts of wheat for three weeks have been larger than last year in spite of storms and frosts. But the rise has practically stopped buying for export, as the similar rise did in April, 1884, which was followed by about the lowest prices then ever known. Whether grain has been greatly injured or not, foreign markets will take early occasion to fortify themselves from other sources. The week's sale here have amounted to 155,000,000 bushels and accounts of damage by frost and by insects are so mixed up that some traders infer the bugs must wear overcoats.

Corn rose 3-4 cents during the week, though much of the corn killed may be replanted; pork rose 50 cents per barrel, lard 5 cents per 100 pounds and oats 2 cents. Cotton also advanced three-eighths during the week, with sales of 1,556,200 bales, current estimates putting the decrease in acreage at 13.5 per cent and the crop at 7,350,000. Even this with known commercial and spinners stocks would give the world for the year and a quarter to come more American cotton than it has ever consumed in a year and a half.

The iron industry distinctly gains and the improvement is no longer confined to prices of materials. Better wages at and west of Pittsburgh convince buyers that prices must rise, and there have been larger sales of finished products with about \$1 per ton better prices for structural forms and steel bars, while Bessemer pig has risen to \$11.50 at Pittsburgh. The Thomas Company has advanced its anthracite pig 50 cents and higher freights made southern cost more at the east. Sales of rails to May 1 were 420,000 tons and deliveries 250,000, both larger than last year. Nail works are combining and a coke pool is expected to raise prices soon.

Pittsburg banks note withdrawals for payrolls in the past month of \$2,383,397, against \$1,865,818 last year by the same works. Orders this year number 22,029 freight and 72 passenger cars, 5,000 more than in the year 1894, but in 1893, and previous years the output was over 93,000 freight cars. Anthracite coal is decidedly strong and copper very firm at 10-1-2 cents for lake, though the April output was about 2,500 tons larger than that of January.

Purchases of dry goods in the belief that prices must rise, have kept textile mills fairly busy, but the demand for cottons seems slack on the whole, and print cloths are a sixteenth weaker.

Failures this week have been 207 in the United States, against 183 last year, and 23 in Canada, against 28 last year.

BALTIC SHIP CANAL OPENING.

President Cleveland's Picture Will Illuminate the Night at Kiel.

NEW YORK, May 25.—President Cleveland's portrait will illuminate the night during the festivities attending the opening of the Baltic ship canal. It will be shown in pyrotechnics from the yard arm of the cruiser New York at Kiel, and at the same time a fey portrait of Emperor William II will be displayed.

It was suggested to Secretary Herbert shortly before the New York sailed that it would be an excellent idea to have a display of fire works at the opening of the canal and that the president's portrait would look well among other set pieces. The secretary thought well of the suggestion and orders to that effect were accordingly given.

Murder Over Wages.

BOWLING GREEN, Ky., May 25.—In a difficulty over wages kept, J. S. Morehead struck a former employee, Robert Bittner, with a bar of iron fracturing his skull. Bittner is not expected to live. Morehead is one of the most prominent citizens of this county and is the proprietor of the planing mill here. Bittner is about 60 years old and very popular. There is a great deal of excitement over the matter but there is no danger of mob violence. Bittner's brains oozed out through the fractured skull and he can not possibly recover.

One Thousand Men Rejoicing.

YOUNGSTOWN, O., May 25.—The Ohio Steel company of this city has advanced the wages of all employees, over 1,000 in number, 10 per cent. The action was voluntary on the part of the company. With the laborers the advance dates back to May 15 last, and with skilled workmen it will begin June 1. The news is received with great rejoicing by the men.

ATTENTION, DEMOCRATS.

Mass meeting June 1st, to select Delegates to National Democratic District Convention.

Pursuant to call of the Democratic Executive Committee for Third Railroad Commissioner District, the Democrats of Mason County are hereby notified and requested to meet in mass convention, at court house, Maysville, Saturday, June 1, 1895, at 2 o'clock p. m., for purpose of selecting delegates to represent Mason County in the district convention to be held at Winchester, Ky., Friday, June 7, 1895, for purpose of selecting a Democratic nominee for the office of Railroad Commissioner, to be voted for at November election, 1895.
J. N. KENOE, Chairman.
J. C. LOVEL, Secretary.

Generally fair weather.

A HORSE, saddled and bridled, but riderless, created some excitement this morning by dashing up Second and Market at a lively gait. He had scared at a street car near the opera house and got away from his rider, a colored boy.

THE June term of the Mason Circuit Court will convene a week from next Monday. The docket closed yesterday, with forty-eight appearances on the common law side and thirty-five equity. There are three new divorce cases.

MR. LEWIS BIERLEY died Thursday at his home near Carr's, Lewis County, of fever. His remains were brought down this morning on the Silver Wave, and were interred at Aberdeen. Deceased was a brother of the late C. W. Bierley, of this city.

MR. JOSEPH KINDIG, the horseman from York, Pa., arrived yesterday and is ready for business. He made a trip to the west end of the county yesterday afternoon, looking for some good horses. He can be found, as advertised, at Mose Daulton & Bro.'s livery stable.

SERVICES in the First Presbyterian Church to-morrow morning and night at the usual hour, conducted by the pastor. Church Sabbath school at 9:15 a. m. Mission Sabbath school in the German Church at 2:30 p. m. Westminster Society of Christian Endeavor at 6:45 p. m.

GEORGE HAHN, a forger, the first prisoner confined in Adams County's new jail, recently constructed at a cost of \$20,000, drew the pins from the hinges of three massive doors Thursday night and walked out of the building a free man. He was still at large at last accounts.

SHED WILLIAMS, aged fifty, attempted suicide Thursday near Moorefield. He was found hanging to a tree, but was cut down in time to save his life. He is the father of Lizzie Williams, who charged Dr. W. D. Howe with criminal assault, and over which Williams went crazy and was sent to the asylum for some time. His action is supposed to be the result of the trouble about his daughter. The case has not come to trial owing to the prosecuting witnesses failing to appear.

THE WALLACE SHOWS.

They Are First Class in Every Respect.
Such is the Verdict of the Papers.

The big Wallace Shows will be here June 11th. They visited several cities in Central Kentucky last week and here's what the papers say:

Georgetown Times: "The circus is first-class in every respect. The menagerie, though limited, is a good one. All of the animals are in prime condition. Taken altogether, it was one of the best shows that has ever visited Georgetown. The horses are sleek and fat and the wagons and paraphernalia bright and new."

Danville Advocate: "Notwithstanding the atmosphere suggested a red-hot stove instead of palm leaf fans and ice cold lemonade, a good sized audience gathered under the big tent in the afternoon and enjoyed the performance to the fullest extent. The parade through the streets was a handsome exhibition of superb horses, while the magnitude of the display gave some idea of what was to be seen under the canvases. The show was fully up to expectations. The performance was excellent, while the good order that Mr. Wallace prides himself upon preserving was maintained throughout."

Lexington Transcript: "The horses, and there were many of them, were the finest that ever pulled a red wagon through the streets of Lexington. They were all big, strapping fellows, whose glossy coats gave evidence of the careful grooming they receive. The cars, wagons, tents and other paraphernalia are all new and present a very attractive appearance. The train consists of a parlor car with six state rooms, two performers' sleeping cars, one for the ladies and one for the gentlemen, a dining car, a "privilege" car, in which is sold drinks, lunch, etc., the "tough" car, in which 100 "razor backs," as the canvasmen are called, find bunks on which to rest their weary bones. Seven stock cars in which horses, elephants, camel, etc., are transported, and eighteen flat cars on which the wagons containing the dens of wild animals, canvas, poles, harness, cooking utensils, bric-a-brac and trappings of all kinds are carried."

A GOOD THING

And It Should be Pushed Along to Completion—The Pike Up The Ohio Side of The River.

[Aberdeen Journal.]

The County Commissioners and County Surveyor Chas. Gore were here last week making a preliminary survey of the turnpike from this place to the Adams County line. If this pike is built it will greatly benefit the business men of Aberdeen and Maysville.

A gentleman from Wilson's Bottom, opposite Manchester, was recently heard to say that if the pike was finished to the county line that the residents of that place could come to Maysville by crossing the river at Manchester and coming down on this side and by so doing they could avoid two big hills that they would have to climb on the Kentucky side and save a drive of at least four miles, besides the amount they would save by avoiding the toll-gates, about 75 cents, would more than pay their ferriage. The person from whom we received the above information is a prominent and reliable farmer of Lewis County, Ky., and our business men should hustle to raise the required 20 per cent.

The Maysville merchants will also be greatly benefited by this road as they will receive a large amount of the trade which now goes to Manchester on account of the bad roads and high tolls, and all should subscribe liberally for this turnpike as this is a rich neighborhood along the road; all are well-to-do farmers and they all go to Manchester, where if we had the pike finished Aberdeen and Maysville would get a large portion. Now let's all get together and raise the required per cent.

When Baby was sick, we gave her Castoria.
When she was a Child, she cried for Castoria.
When she became Miss, she clung to Castoria.
When she had Children, she gave them Castoria.

THE News-Democrat of Georgetown, O., says tobacco plants are badly injured all over Brown County by the ravages of the cut worms. Where plant beds have been made in old fence rows or on sod ground they are entirely gone. In new ground or in the woods they are not hurt. It is estimated that in many portions of the county not 10 per cent. of the plant crop of former years can be found, and that if by any reason they are destroyed after being set out not 10 per cent of the usual crop can be produced.

Wesley Osborne Acquitted.

Wesley Osborne was acquitted in the Lewis Circuit Court yesterday morning of the murder of young Hiram Adams near Cottageville a year or so ago. The jury was out about two hours. Judge Phister, of this city, and Judges Thomas and Pugh, of Vanceburg, were Osborne's attorneys, while Judge Cole and Judge Wadsworth assisted Commonwealths Attorney Sallee. Osborne came down yesterday afternoon and went out to the home of his sister near Lewisburg.

PRETTY FEET

Should have pretty Shoes, the prettiest Shoes, in fact, that can be found. For the information of all possessors of pretty feet in Maysville (and their number is large) we desire to say that we have the very shoes they require. A glance at our stock will prove this statement beyond all question. In the matter of prettiness, the Shoes are the best evidence, and we submit ours as conclusive proof of their superiority. They are not only pretty, but stylish, durable, comfortable, and much more than pretty cheap at our figures.

Their First Ride.

[Ripley Bee.]

A good joke is told on two young men from this city who were passengers on a C. and O. train, returning from the city. They were unaccustomed to railway travel, and were constantly on the watch for some accident. Every few minutes they would raise the window and look out. Presently, as the train came around a curve, one of them saw a fence which he seemed to suppose crossed the track. Jerking his head in, he said, in frightened tone, loud enough to be heard by every one in the car: "Hold on tight, Billie, she's going to jump a fence!"

THE CASE ESTATE.

A Maysvill Family Who May Re-ceive Paof the Cleveland Mil-laire's Money.

The Lexicon Transcript says: "One of the happiemen in Lexington to-day is Mr. Frank Woods, a well-known car-penter residi on Chestnut street. The cause of his lpiness is the fact that he has just fall heir to \$62,000 in cold cash, a lega left him by Leonard Case, his greauncle, of Cleveland, Ohio, who died manyears ago leaving an estate worth aht \$14,000,000. For several years theofers of the estate have been*workingi this claim and, as they were scatteredder considerable country, the task has ncessarily been an arduous one, and ha involved considerable search for justaimants.

"Mr. FrankWoods represents one branch of the se family, and his share of the estate aunts to about \$62,000.

"Leonard Ca was a great uncle of Mr. Woods' nther, who was a Miss Mary Case, dauter of Joseph M. Case. Mr. Woods sees to have known that there was a proective fortune awaiting him, having b inherited from his wealthy ancestobut some how or other lost sight of it,nd had not paid much attention to it olate years, until about three weeks ago,hen he received a letter from his broer, Mr. James Woods, of Maysville, infaining,him that late in-vestigations had pven them just claim-ants to the immeie fortune and all that now remains to bdone is to prove their relationship and identity, which can be easily done by livg witnesses."

Mr. James M. Woods, of the Sixth ward, is the Maysvian referred to by the Transcript. Accoing to that paper he also would veive \$62,000. It is learned, however, hat the question is not definitely seted yet. His many friends, however, ust that the good fortune awaits him.

Mose Daulton & Bro. Always Abreast of the Times—Latest Additions to Their Outfit—Liveried Drivers.

Messrs. Mose Daulton & Bro., proprie-tors of the long-established Second street livery and sale stables (the Phoenix) of this city, always keep abreast of the times and spare no expense to have the most complete and modern outfits in their business. Last week they added to their already most complete stock of liv-ery turnouts a very handsome and the very latest styled French neck landau, or wedding car, and also from the same firm (The Riddle Coach and Hearse Company, Ravenna, O.) the very latest vehicle out in the shape of a coupe rockaway.

Recently they have introduced a pleas-ing innovation in handsomely costuming their drivers in dark green livery coats with silver buttons and silk hats, a cus-tom that prevails in all the up-to-date cities. Messrs. D. & Bro. have been too long in the business to need any recom-mendation at the hands of the BULLETIN; the eminent satisfaction they have always given to their customers is the best guarantee of future performance.

Those who have occasion to use hack or carriages for weddings and other uses, will welcome the introduction of uni-formed drivers by Messrs. D. & Bro., and they may rest assured that every driver is an expert in the management of horses.

At Ann Arbor one day this week a fakir caught a nice lot of suckers. Stand-ing at the rear end of an open hack he produced a deck of cards and asked each onlooker to draw one. He would place the card in a cigar box and return it in a few minutes with a photograph of the onlooker on the back. Then he asked all to turn their backs to the "mesmerism act." A \$5 bill was offered to the holder of a lucky card. Fifty cards were sold at \$1 apiece, one man buying eight. "Now," said the fakir, "I will drive around the corner to show you how the photographs are produced," and away he went. His victims are still looking for him.

ROSENAU BROTHERS

BEE HIVE DRY GOODS STORE.

COMMON SENSE TALK.

New York's Big Dry Goods Merchant Writes on the Subject of Free Coinage.

Mr. Simeon Rosenau of the Bee Hive is in receipt of an interesting letter from John Clafin, New York's big dry goods merchant, on the subject of free coinage. He says:

The panic of 1893 was caused by fear that the silver purchases of the United States were about to bring the country to a silver basis. This fear led primarily to abnormal gold exports and to hoarding of gold. As gold disappeared the panic grew. When the panic became general all kinds of money were hoarded without discrimination, because many persons feared that all financial institutions might be ruined, and in unreasoning alarm they thought that any kind of money would be safer than a bank account. When the bill repealing the silver purchasing clause of the Sherman act passed the House of Representatives by a vote so overwhelming that it seemed certain that the bill would ultimately become a law, the panic subsided. The very day after the vote in the House of Representatives the situation changed radically. For the first time in months money was offered to merchants, and the acute phase of the panic was at an end.

Depression, however, continued while the Senate debated the bill, but signs of recuperation were not wanting, and a distinct improvement began when the Senate concurred with the House in the repeal of the silver purchasing clause.

Shall we invite a fresh panic by considering free silver coinage in the United States without the concurrence of other nations?

Nothing can be more certain than that free coinage of silver at the ratio of 16 to 1 by the United States alone would result in a scramble for gold. This would cause an immediate contraction of loans and a general financial panic would inevitably ensue; business would then be paralyzed once more and another season of calamity would be upon us.

Those who wish to see better prices for all commodities must remember that the consuming power of the people depends on their earnings. The depression which always follows a panic throws many persons out of employment and for a long time after the panic many remain unemployed. We are now slowly recovering from the panic of 1893; every month the consuming power of the people increases. Let this consuming power steadily grow and it will soon catch up with any temporary excess of the world's supply of commodities, and thus surely and safely produce higher prices. Check this consuming power by a panic, and a vast increase in the number of the unemployed will depress prices more than free coinage of silver can raise them.

Free coinage of silver by the concurrent action of the great nations would, we believe, be of decided advantage to the world.

Free coinage of silver at the ratio of 16 to 1 by the United States alone would invite panic, calamity and disorder. It would put this country onto a monometallic silver basis, and by driving gold out of use would abruptly and dangerously contract the volume of our currency.

KILLED HIS CHILD AND HIMSELF. A Despondent Bohemian Commits a Horrible Crime in Chicago.

CHICAGO, May 25.—Louis Kracman, a Bohemian, despondent over the loss of work and unable to properly provide for his 3-year-old daughter, shot and killed the child at his home yesterday afternoon, and then put a bullet through his own brain.

Mrs. Kracman was at work but returned home at an early hour. She tried the door but found it locked and vainly endeavored to affect an entrance. Some neighbors assisted her in forcing the door. The dead bodies of Kracman and the little girl were found lying on the floor. He left a note for his wife saying that he had killed the child and was going to kill himself because he could not find work and would not leave the little one to be a burden on his wife.

CASTORIA

for Infants and Children.

MOTHERS, Do You Know

that Paregoric, Bateman's Drops, Godfrey's Cordial, many so-called Soothing Syrups, and most remedies for children are composed of opium or morphine?

Do You Know that opium and morphine are stupefying narcotic poisons?

Do You Know that in most countries druggists are not permitted to sell narcotics without labeling them poisons?

Do You Know that you should not permit any medicine to be given your child unless you or your physician know of what it is composed?

Do You Know that Castoria is a purely vegetable preparation, and that a list of its ingredients is published with every bottle?

Do You Know that Castoria is the prescription of the famous Dr. Samuel Pitcher. That it has been in use for nearly thirty years, and that more Castoria is now sold than of all other remedies for children combined?

Do You Know that the Patent Office Department of the United States, and of other countries, have issued exclusive right to Dr. Pitcher and his assigns to use the word "Castoria" and its formula, and that to imitate them is a state prison offense?

Do You Know that one of the reasons for granting this government protection was because Castoria had been proven to be absolutely harmless?

Do You Know that 35 average doses of Castoria are furnished for 35 cents, or one cent a dose?

Do You Know that when possessed of this perfect preparation, your children may be kept well, and that you may have unbroken rest?

Well, these things are worth knowing. They are facts.

The fac-simile signature of *Dr. H. Pitcher* is on every wrapper.
